IT PROJECTS

Personal Website & Portfolio

My Website link is available on my portfolio. Consists of my skills, personal interests, the major Projects I have worked on in the form of videos to get a better view of them and a link to my portfolio for UI/UX & graphic designing. A documents page is also available.

Projects on Github

1. Smart Park (Final Year Project): A smart parking management system consisting of OCR, android application and Bluetooth BLE beacons
2. Personal HTML/CSS/JS website
3. Sample React-Redux website
4. Basic Banking system website
5. Blog App (MERN stack, CRUD, Rest API)
